

# KSOFTNET *EMAIL QUOTATION*

One way to look professional in the business market is to have a good looking Gmail domain. It sells your company by using your personalized domain and also helps to organize your documents and files. You have 24/7 access to files on the cloud.

## Basic

- \$2/per user for a month
- \$20/per user for a year
- Business email through Gmail
- Documents, spreadsheets and presentations
- 5 GB Cloud storage

## Business

- \$3/per user for a month
- \$30/per user for a year
- Business email through Gmail
- Security and Administration control
- Documents, spreadsheets and presentations
- 10 GB Cloud storage

## Enterprise

- \$5/per user for a month
- \$50/per user for a year
- Business email through Gmail
- Documents, spreadsheets and presentations
- Archive and smart search across Gmail

## Note

- You will need a domain ([something@companyname.com](mailto:something@companyname.com)) before email can be set. (domain price range between \$15 and \$30)
- Add users for additional monthly cost
- Remove users at any time to reduce monthly cost
- Cancel service at any time without penalty
